Both Paw Paw banks have statements in this paper, and they reveal a gratifying condition in these two solid financial institutions.

Stevens' circus, which some Paw Paw people were skeptical enough to believe would never start, opened the season at Kalamazoo last week and was well spoken of by the papers of that city.

There is talk of celebrating July 4 in Paw Paw, giving half the day to games in the village, the other half of the day to horse and bicycle races on the Cleveland Bay grounds, winding up with fireworks in the evening. Why not?

The best that money can buy or skill produce may be truthfully said of "H. S. & M." clothing sold by E. Smith & Co. Their new cartoon advertisements are bringing many callers to their store, and few can resist the temptation to buy when they see the goods and the prices.

The Baptist christian endeavor society has been disbanded. This society was a union of the young people of the Baptist and Free Will Baptist churches. Each church will organize a young people's society of its own--probably on a Baptist union, the other an A. C. F. society.

David Anderson Jr. will speak at Lacota on Memorial Day. He delivered the address there last year and his hearers liked him so well they have secured him again.

Holmes & Bisbrow report a marked decline in hardware prices--all lines, this spring, and as they sell for cash only, and give 10 to 15 percent discount from regular retail prices, it is evident that purchasers will do well to look them over before buying. Fishermen will find a splendid stock of goods to select from.

Those who heard the brief phonograph concert before the ordination service at the Presbyterian church Wednesday evening, will be pleased to know that B. B. Bennett, the gentleman having the instrument in charge, has arranged to give an evening entertainment Tuesday evening, May 21, at the Presbyterian church. Those who attend are assured a rare musical treat and a novel evening of pleasure.

Some people think that our village might prevail upon capitalists to put in a system of water works in this place if a suitable franchise would be granted. To such we would say, find your capitalists, apply for the franchise and the council will doubtless do the rest. If such an investment could be made profitable to the investors in it we have no doubt the village authorities and the citizens generally would do all in their power to promote the enterprise.

The Masonic school of instruction held in this place Wednesday by Grand Lecturer Arthur M. Clark was a most gratifying success. Members of the order attended from various neighboring lodges, about 100 being present. The work was exemplified in a most satisfactory manner and an elaborate banquet was served at the Clifton house--and Paw Paw Masons never conduct such an affair in any half-way manner. While the school was not so largely attended as some previously held here, it was one of the most pleasant and profitable.

Paw Paw grange has been doing some good effective work since the last election of officers at the close of the year past. Thirty-one new members have been added and a good awakening has been made among the older ones. At a social held a short time since seven dollars and ninety cents was received, and enough was added from the general fund to furnish thirty-five copies of any Grange Visitor to families where its members were clear on the books in payment of dues, and there is a prospect of increasing the list. A dissemination of the literature of the order is a potent factor in giving vigor thereto, and still better work is looked for in the days to come.

The bill to authorize Paw Paw township to bond itself for public improvements is yet hung up in the senate committee and seems likely to remain there until the close of the session. This state of things is a disappointment to the great majority of the people of the township, who feel that they should have the privilege of voting on this question, particularly as the passage of the bill no one is divested of any right or burdened in any way unless the majority so decides. Senator Merriam will make a mistake if he does not, in these closing days of the session, bestir himself in this matter. It is not merely a question of whether we will have an electric road or not. Other projects are in the air, and it is extremely probable that within the next two years Paw Paw will have an opportunity to secure a railroad if she is in a position to put up cash for it. If this bill is killed, it will be two full years before we can get as far along again. Realizing this, and the extreme desirability of being in a position to offer some inducements for a railroad, some of the parties who were at the start most active in opposing the bonding bill are now anxious for its passage. Paw Paw people are perfectly competent to decide at the polls whether they desire to borrow money for any specific purpose or not, and all that anyone asks is that the privilege of voting be given them.

The most valuable assistants to good instructors in our modern schools are good books. Indeed, a school that depends upon instructors and dry text books to accomplish the education of its students, is bound to be an institution that stands low in the estimation of the people, and one that puts a premium upon narrowness and pedantry rather than striving to raise the standard of intelligence among its pupils. The Paw Paw school has always been reckoned a progressive one, and especially within the past few years has the value and necessity of a good library been realized. From time to time additions have been made. Last year an appropriation of \$200 was voted for this specific use, and about 100 volumes have recently been purchased, not quite exhausting the appropriation. These volumes are judiciously selected, and we are happy to say that our school library has passed that stage where it is confined to reference works merely. The new books comprise biographies, entertaining histories, interesting scientific works, some of the best fiction, historical stories from which the young people will learn and remember more history than from a whole book full of dry tabulations of dates. The library now numbers some 400 volumes. Let the good work go on; \$200 should be appropriated this year, next year and every year for the purchase of library additions. In the space of a very few years, such a course would give to Paw Paw a public library of which it would be proud and which would be a fine thing for the community. A vacant room at the school house could easily be utilized as a public reading room and the library be made a circulating one. The vast Kalamazoo public library is the school district library, gotten together in a way similar to this. By all means, add to the school library, first for the benefit of our fine educational institution, but ultimately for the use of the whole community.
